### SUMMARY

A lifelong learner and programming enthusiast, a software developer with a passion for crafting extraordinary user experiences. With expertise in React.js, Next.js, Redux, React native, Futtter, JavaScript, and TypeScript. I have a solid understanding of these technologies and I am able to use them to build dynamic and user-friendly websites and apps.

---

### SKILLS

JavaScript ECMAScript 2020 (latest)

ReactJS

Dart

NextJS

Python

Flutter

Typescript

Unit Testing (Jest, Enzyme)

---

### PROFESSIONAL EXPERIENCE

#### PT. Zahir Internasional

Oct 2022 - Mar 2024

##### Frontend Engineer

As an experienced front-end developer, I have successfully contributed to numerous projects within my current company, showcasing my expertise in React.js, JavaScript, TypeScript, Dart, Flutter, React Native, Express, Material UI, Redux, and more. My biggest achievements include delivering high-quality, user friendly, and scalable solutions, collaborating effectively with cross-functional teams, and consistently meeting project deadlines.

#### PT. Intitek Presisi Integrasi

Apr 2024 - Present

##### Full-stack Engineer

As a full-stack engineer, I design, develop, and maintain web applications, handling both front-end and back-end development tasks. My expertise spans multiple technologies, ensuring seamless integration and robust performance. I participate in agile development cycles, contributing to sprint planning, task estimation, and iterative progress towards project goals. My role includes balancing technical debt with feature development to maintain a healthy codebase.

---

### PROJECTS

#### October 2022 - Desember 2023

Developed a robust enterprise accounting software application, integrating backend APIs for seamless data flow and accurate financial reporting. Designed and implemented full-stack web applications using Vue.js and React.js for dynamic user interfaces, and employed TypeScript and JavaScript for maintainable, efficient code. Focused on delivering optimized, high-performance applications by consistently applying industry best practices.

---

### EDUCATIONS

- Islamic Modern Boarding School of Darul Qurro 2012 - 2018
- Fullstack Dev Bootcamp PT Dumbways Teknologi Indonesia 2022 - 2022
- Universitas Siber Muhammadiyah (USM) with a major Information Systems - present

---

### CAREER OBJECTIVE

I'm a software engineer expert skilled in both frontend and backend development. With expertise in technologies like React for frontend and various backend frameworks, I create seamless, intuitive user experiences. I collaborate effectively in cross-functional teams to deliver innovative solutions aligned with user needs and business goals.
